

Dear Mr. Powell,

It is wrong for the FCC to ignore the large number of people who are in opposition to the proposed change in FCC rules governing media ownership. Perhaps if the new rules were made public, I might have a different opinion. Why are you keeping everyone in the dark about what you plan to do? What you are doing is a shameful disgrace to every American. The FCC may very well find that once Americans see what you have done, there will be little mercy shown. Perhaps one of those "overhauls" to purge the FCC of incompetence will be in order.

Sincerely,

Steven Oertli
